 @CodebyAdil

 /adil-fullstack

Software Engineer with a strong foundation in **full-stack development**, specializing in **JavaScript, React, and Node.js**. Passionate about designing **scalable, efficient, and user-centric applications**. Experienced in building **web and mobile solutions**, API development, and database management. Enthusiastic about continuous learning and leveraging the latest technologies to drive innovation.

SKILLS

- **Programming Languages:** JavaScript, Python, C++
- **Front-End Technologies:** HTML, CSS, Tailwind CSS, Bootstrap, React, React Native
- **Back-End & Databases:** Node.js (Express.js), SQL, MySQL, MongoDB
- **Tools & Others:** Git/GitHub, API Development, Redux, Firebase

EDUCATION

Punjab University College of Information Technology | **PUCIT**
Bachelor of Science in Information Technology | **BSIT**
Relevant Coursework: OOP, Databases, Data Structures.

Lahore, Pakistan
CGPA: 3.34 | *July 2024*

EXPERIENCE

Remote Fellowship | Bytewise Limited

March 2024 – June 2024

- Developed **proficiency in front-end development** using React and JavaScript.
- Built a **single-page weather application** integrating a real-time **Weather API**.

Virtual Internship | JPMorgan Chase (Forage Program)

February 2024

- Completed **software engineering simulation** focused on **JavaScript, Python, and SQL**.
- Gained exposure to **virtual teamwork and collaborative software development**

ACADEMIC PROJECTS

Full-Stack Job Portal

- Developed a job portal that allows employers to **post jobs and job seekers to apply** including **resume uploads, job filtering, and an admin dashboard** for managing users and postings.
- Key Technologies: **React, Node.js (Express.js), MongoDB, Firebase Authentication**

E-commerce Dashboard

- Build a **React-based admin dashboard** for an e-commerce store, including **order management, analytics, and user authentication**.
- Key Technologies: **React, Firebase, Tailwind CSS**
